## Aquamarine Fukushima's Recommendations

### Experience

#### Fishing Experience

Feel life through catching and eating

[Place] Aquamarine Egg Fishing Area 1F

Visitors are encouraged to enjoy fishing as a family or in groups. You can even eat the fish you catch right there.

Rod & Fish

Fees Apply

#### Hands-on programs learning with the "Gombes" interpreters

Guided tours are available to observe and learn about the exhibited creatures and the backstage areas.

Please check the official website for details on how to apply.

#### Forest for Eggs Animal GOKKO Play like animals in the forest

~ Challenge their abilities! ~

Learn about the abilities that animals have to live in the forest through fun and playground equipments.

Playground equipment has an age recommendation.

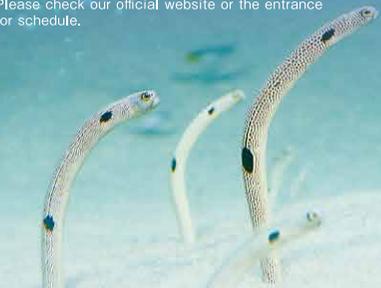

#### Children's Experience Center "Aquamarine Egg"

Grand Reopening in Spring 2026!

Reborn as a "First Aquarium" where children's sense of discovery and wonder grows through play and learning. Let's find lots of "?" and "!" together!

Please note that the content and scheduling of each experience may be subject to cancellation or changes. Please check our official website or the entrance for schedule.

# AQUAMARINE FUKUSHIMA FLOOR GUIDE

The oceans and what they say about our future on earth.

"Shiome", where the warm Kuroshio current meets the cold Oyashio current. The theme of the exhibits at Aquamarine Fukushima is the "Shiome" that occurs off the coast of Fukushima Prefecture. An aquarium that recreates various natural environments and offers a variety of experiences.

Estimated Viewing Length  
**1.5-4 hours**

**Outdoors**  
**JUBJUB Sea of Circulation**  
It is 4,500 square meters in size and recreates the environment of the seashores: rocky shores, tidal flats, and beaches.

**1F**  
**Evolution of Life in the Seas**  
In addition to specimens of coelacanths, the exhibit also shows the results of surveys and research of coelacanths, as well as the world's first footage of juvenile coelacanth.

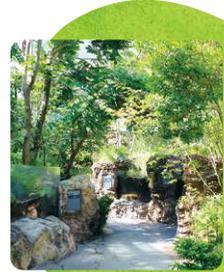

**2F**  
**The Sea of the Current Rip "Shiome"**  
View the strong swimming fish of the Kuroshio current and the diverse creatures of the Oyashio current.

**2F**  
**Oyashio Ice Box**  
Introducing small yet uniquely colorful creatures, a scene resembling a treasure chest.

**4F**  
**Along the Shores of Fukushima**  
You can see creatures from the upper river basin to the coast of Fukushima Prefecture.

**2F**  
**Sea of Coral Reef**  
This exhibit features the creatures that live in the coral reefs at the source of the Kuroshio current.

**3F**  
**Marine Mammals and Seabirds in the Northern Pacific**  
Marine Mammals such as the Spotted Seal and the Steller Sea Lion along with Seabirds are available for viewing. Don't miss the incredible feeding time experience!
